

K-LINE INSULATORS will exhibit at the upcoming IEEE PES T&D Conference & Exposition. Please be sure and drop by Booth #2403 and spend time meeting with K-LINE personnel and reviewing the K-LINE product line.

On display will be our wide range of Silicone Rubber Insulators and specialty products. We are introducing our new 400 kV Transmission Deadend / Suspension Insulator and will have a sample available in the booth.

Tony Carreira, President K-LINE INSULATORS is scheduled to present an INFO-SESSION as part of the IEEE PES CONFERENCE AND EXPOSITION official program. Tony's one-hour presentation titled "Guy Strains and Extension Insulators" will highlight Utility concerns related to the long term integrity/reliability of Fiberglass Guy Strains used in guy assemblies or in electrical applications. The INFO-SESSION is scheduled Wednesday April 23 at 9:30 AM in Room 502a.

Tony Baker, VP Technology K-LINE INSULATORS is the Chair and Panelist for session PN23 "Design and Application of High Voltage Braced Insulator Assemblies". Scheduled for Thursday April 23 at 8:00 AM, the session will discuss installation and maintenance of braced insulator assemblies.

K-LINE INSULATORS is celebrating our 25th Anniversary in 2008 and the IEEE PES T&D Conference & Exposition provides a timely opportunity for us to meet and greet Customers and our Sales Representatives.
